The basic toolbox

- Start with minimum but a bit of e
- Replace worn or broken tools w
you can buy
– because now you know that you
- We will draw for this tool box a
the session – so don't leave!

Other Potential Businesses

- An examination of how houses and buildings are currently heated may lead to the development of a local industry that formalizes a local approach to providing heat or fuels;
- The development of building component manufacturing capabilities such as trusses, doors, windows and cabinets will be investigated as a business opportunity;
- Multi-Modal transportation of building materials to the communities will be investigated as a vital part of housing and infrastructure that could provide business opportunities for NAN First Nations.

MAINTENANCE OF HRV VENTILATION SYSTEMS

Important Cautions

- Always unplug HRVs before starting maintenance
 - Keeps you safe from moving parts and electrical shock
 - Avoids drawing dust and debris into duct work & the unit
- Refer to manufacturers' instructions & recommendations
- Use the proper tools and cleaning supplies
 - Avoid damaging plastic parts – they can become brittle over time
